

Mount Vernon Cancer Centre is a well renowned Cancer Centre providing specialist care across outpatient and inpatient Chemotherapy, Radiotherapy and Palliative Care services to a population of almost 2 million. Approximately 5000 new patients are referred to us each year from a wide catchment area including Hertfordshire, Bedfordshire, North West London and parts of Berkshire and Thames Valley. More specialised services including Clinical Research Trials and Brachytherapy are also provided to patients across the Country.

We currently have exciting opportunities for Registered Nurses & Chemotherapy Nurses across a range of departments including:

- The Inpatient Oncology Ward
- The Outpatient Chemotherapy Unit
- Michael Sobell House Specialist Palliative Care Unit

The Centre employs 500 staff and offers career opportunities in haemato-oncology and medical oncology subspecialties, including rotational programmes through a number of areas.
